#ALS2018

The ALSGBI Council wishes to thank all Industry Partners and in particular:

Medtronic Ltd for sponsoring the ALSGBI Laparoscopic Surgery Training Day held at The Education Centre (Department 17), The Christie School of Oncology, The Christie NHS Foundation Trust, Wilmslow Road, Manchester, M20 4BX on Tuesday 4 December. A special thanks also to KARL STORZ Endoscopy (UK) Ltd for providing all the camera equipment used during the day; Intuitive for providing the Da Vinci Robot and Inovus Medical for providing the Lap Trainers.

Training Day sponsored by  Supported by   

Cook Medical, ETHICON, KARL STORZ Endoscopy (UK) Ltd, Intuitive Surgical and Mölnlycke Health Care Ltd for generously sponsoring the live links on Wednesday 5 December and for all the hard work involved in the planning of the AV.

Arthrex Ltd for providing their Mobile Skills Training Lab for the LapPass Test Centre on Wednesday 5 and Thursday 6 December.

The European Association for Endoscopic Surgery for supporting the EAES Lecture and the 2018 David Dunn Prize for the best oral abstract. The Journal of Surgical Simulation for the second best oral abstract prize.

PARTNERS 2018/2019

PLATINUM

GOLD

SILVER

SPECIAL ROBOTICS SPONSOR

PRESIDENTIAL WELCOME

Dear Association Members & Delegates

Welcome to Manchester Central for the 2018 Annual Scientific Meeting of the ALSGBI. The meeting falls in December for the first time, which should guarantee a festive feel as we lead into the holiday season.

The theme of the meeting is training and avoidance of complications and their obvious interdependence. In addition the live operating will showcase the new responsibilities of the Association by incorporating robotic and technology-enhanced surgery.

Mr Chelliah Selvasekar, as the local organiser, has done a sterling job of bringing together these themes with lots of local talent and some high profile invitees and we can look forward to a stimulating 3 days, including the training day, which for the first time includes access to a surgical robot for the trainees. The training day has once again been organised expertly by Mr Paul Leeder, our Director of Education, and the local team.

We are delighted to be able to welcome Professor Scott Kelley from the Mayo Clinic, who is the Training Programme Director for Robotics, and Professor Saumitra Rawat, who heads up the Surgical & Transplant Unit at Sir Ganga Ram Hospital, Delhi. We are looking forward to hearing about surgical training and how to reduce complications in two very different demographics and health systems. Meanwhile the ALTS sessions will be focusing on human factors in reducing complications, and boast some great talks including an insight into coping with the Manchester bombing by Consultant General & Colorectal Surgeon, Mr David Jones.

A mini symposium on 'the importance of getting it right' will take the conference theme forward with sound guidance from Professor Nader Francis, EAES Director of Education, and some salutary lessons from Professor Peter Sagar, who is a member of the ASGBI Executive and has played an integral role in the medico-legal approach to recent medical manslaughter cases. Of course, in addition there will be the usual potpourri of free papers, posters and video presentations to get involved with and finally, back due to popular demand will be the LapPass training stacks, with LapPass assessments running throughout the meeting.

The live operating day will be transmitted from 2 sites, 2 theatres at the Christie in Manchester and 1 theatre at the Royal Derby Hospital. There will also be a video presentation of ICG fluoroscopy during the day by Mr Manish Chand, from University College London. We will be able to enjoy a variety of robotic cases in various situations. In addition, there will be a live case conducted by a senior trainee set up as a Lapco training case, with subsequent analysis as a 'Training the Trainer' mock up. For those of us who are not part of the Lapco training fraternity this will give an insight into this extremely successful training approach.

In keeping with the theme of avoiding complications, on the live operating day we will be showing some videos of intra-operative adverse events to review and discuss.

The training day has proven to be a great opportunity for hands on training with simulated procedures on models, animal tissue and for the first time access to the Da Vinci robot. As usual the ratio of trainers to trainees was close to 1:1, and this well-organised training day has continued to excel as an educational opportunity.

The social programme includes the President's Drinks Reception, where we will be joined by Mr Andy Burnham, Mayor of Manchester and former Secretary of State for Health, followed by the Conference Dinner at The Midland Hotel with special guest speaker, former cricketer, Mr Geoff Miller, OBE.

This meeting will be a showcase of modern surgical techniques and technologies. I know that Manchester Central will be full of enthusiasts, so please immerse yourselves in the programmes, both scientific and social. I look forward to seeing you there.

With best wishes

Mr Simon Dexter
ALSGBI President

WELCOME FROM THE LOCAL ORGANISER

Dear Association Members, Faculty & Delegates

We are delighted to welcome the Association of Laparoscopic Surgeons of Great Britain and Ireland (ALSGBI) to Manchester for the 2018 Annual Scientific Meeting (ASM). Manchester is a city with a rich industrial heritage and has a proud history in science, art, music and sport. This is the first Annual Scientific Meeting of the ALSGBI after the name change incorporating robotics and technology-enhanced surgery. The North West has been a long-standing supporter of the ALSGBI through the Minimal Access Surgery North West forum (MASNoW). MASNoW was initially started to include a network of laparoscopic colorectal surgeons within Manchester, Mersey and Cheshire with the aim of supporting, networking, and training in minimal access surgery. The group has now expanded to welcome minimal access clinicians from all specialties across the North West and hosts a bi-annual meeting consisting of talks from trainers along with trainee presentations. In addition, MASNoW has recently run its third successful sponsored LapPass training day.

There are many people without whom this meeting would not have been possible: we would particularly like to thank Mr Andy Burnham, Mayor of Greater Manchester and Mr Geoff Miller, former Derbyshire, Essex, Natal and England Player and England Cricket Selector for speaking at the Conference Dinner, Mr Roger Spencer, Chief Executive, The Christie NHS Foundation Trust, who has been very supportive of all new health care ventures, my colleagues, anaesthetists, theatre staff and importantly our patients who have agreed to be operated on with a live link and of course our excellent sponsors who have helped not only with the ASM, but also with the evolution of minimal access surgery.

Those attending the Christie for the training day will have some fantastic opportunities to enhance their laparoscopic and robotic skills using a combination of animal and synthetic models and also to practise skills for the formal LapPass assessment.

Finally, a special thank you to Mrs Jennifer Treglohan and Mrs Sarah Williams at the ALSGBI and our ALSGBI President, Mr Simon Dexter, who has supported the local team to ensure an excellent Annual Scientific Meeting.

With the pursuit of refining Minimal Access Surgery in mind, I would like to finish with a quote from Sir Alex Ferguson: 'Drive means a combination of willingness to work hard, emotional fortitude, enormous powers of concentration and a refusal to admit defeat.'

With best wishes

Mr Chelliah Selvasekar

ALSGBI Local Organiser

Consultant Colorectal, Laparoscopic & Robotic Surgeon

The Christie, Manchester, Surgical Team &

Member of the MASNoW Group

WELCOME FROM THE ALTS CHAIR

Dear ALTS Members & Delegates

A very successful conference last year in Wales has fired me with enthusiasm for this year's conference. We will be at Manchester Central and the programme is looking very good. For the first time, the 2 day conference will be held in December, Wednesday and Thursday, 5th and 6th, and we have also moved the ALTS programme to the first day in the afternoon. Hopefully, this will enable you to all meet up early in the proceedings and have a chance to share your knowledge and experiences.

Entitled 'When Complications Strike', we will be examining the role and responsibilities of theatre staff in avoiding complications. We have a fantastic speaker; Mr David Jones who will talk about a real life complication and also about the role of the team in a major crisis. He was part of the surgical team involved in the Manchester bombing and I believe his talk will be both enlightening and interesting. We are also lucky to have Professor Michael McMahon present the Elemental Healthcare lecture. He will deliver his lecture covering medico-legal responsibilities of the theatre staff during serious incidents and never events.

Following the success of last year's human factors lecture, Mr Tan Arulampalam and I would also like to look at the role human factors play in team failure. We will present a short session around this subject and discuss the language of human factors and team work.

Live operating will be on day 1 of the conference and the second day is packed full of DVD presentations, a session on avoiding complications in robotic surgery and others on the importance of 'getting it right'.

Another new introduction this year is the ALTS dinner! We are aware that not all the ALTS delegates go to the conference dinner and Elemental Healthcare have kindly offered to sponsor a dinner just for us which will follow on from the Presidential drinks reception. We only have limited places, they will be offered on a first come first served basis, so book early!

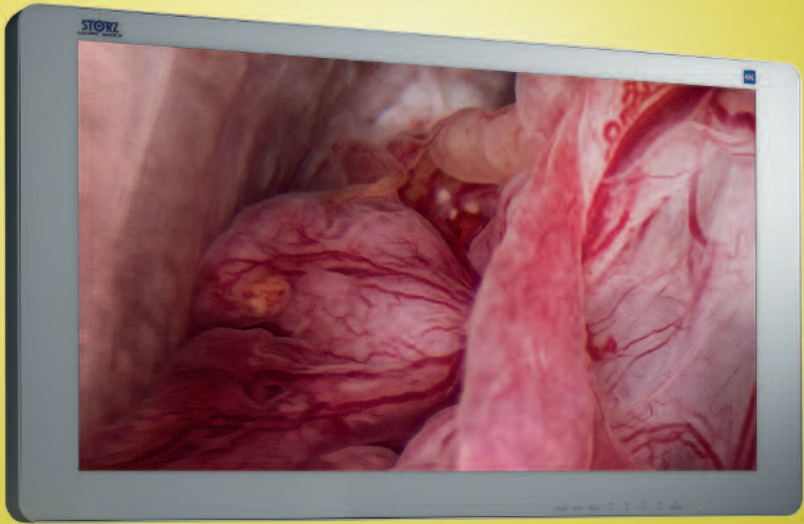

This year we are offering FREE conference registration for 2 days (worth £100 each and 16 CPD points) to all ALTS members, so please encourage your staff to join ALTS today by visiting <https://members.alsgbi.org/join-Now>

It would be great to see lots of you again, we had excellent feedback from all those who attended last year. If you want any further information from me or would like a chat, I can be contacted at: Debbie.Gooch@colchesterhospital.nhs.uk

With best wishes

Mrs Debbie Gooch
ALTS Chairperson

THE DIAMOND STANDARD

RESUME OF INVITED SPEAKERS

PROFESSOR SCOTT KELLEY

Scott Kelley MD, FACS, FASCRS is a colorectal surgeon practising at the Mayo Clinic, Rochester, USA. Having graduated with distinction from the University of Kentucky College of Medicine in 2006, he completed his general surgery training in Cincinnati, Ohio followed by a colon and rectal surgery fellowship at Mayo Clinic. He specialises in neoplasia and robotically-assisted surgery. Professor Kelley is a Fellow of both the American College of Surgeons and American Society of Colon and Rectal Surgeons. With a string of awards, including numerous for teaching, Professor Kelley has more than 40 published papers and 9 book chapters to his name. He also lectures actively, with more than 50 talks since 2007. One of his greatest passions is teaching and education. He is the Program Director for the Colon and Rectal Surgery Residency Training Program at Mayo Clinic, Secretary/Treasurer for the Association of Program Directors for Colon and Rectal Surgery, member of the Surgery and Surgery Subspecialties Graduate Medical Education Committee at Mayo, and member of both the American Society of Colon and Rectal Surgeons Colorectal Resident Education and Operative Competency Committees.

Professor Kelley also serves as the Clinical Practice Chair for the Division of Colon and Rectal Surgery, Medical Director for the hospital colorectal units, and colorectal Practice Chair for the Endoscopy Practice Committee at Mayo Clinic.

PROFESSOR SAUMITRA RAWAT

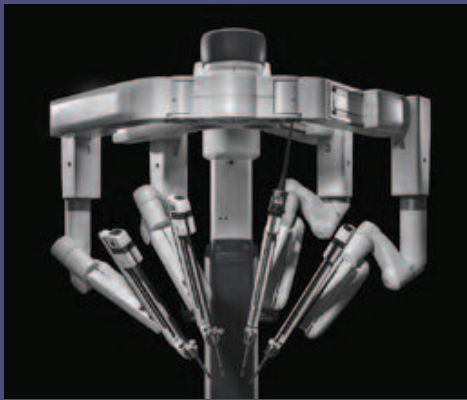

Professor Rawat graduated in 1987 from the prestigious Maulana Azad Medical College, New Delhi and then obtained his Master of Surgery from the same institution. In 1995, he went to England for specialist training. He was subsequently appointed Consultant and Honorary Consultant Surgeon at Glasgow Royal Infirmary, East Cheshire NHS Trust and Christie Hospital respectively. These are internationally recognised centres of excellence. Professor Rawat has an impressive list of fellowships, which includes FRCS (Glasgow), FRCS (Edinburgh), FRCS (England) and FRCS (Intercollegiate). After a very distinguished career in the UK, Professor Rawat returned to India in 2012. He is Chairman and Head, Department of Surgical Gastroenterology & Liver Transplant Department at Sir Ganga Ram Hospital. This department is one of the largest and among the best in the country and a major one internationally. He is also serving as Honorary Consultant Surgeon at the Christie's NHS Foundation Hospital, Manchester, UK. For his distinguished work he was appointed Member, Court of Examiner, Royal College of Surgeons of England. Professor Rawat is a pioneer in bringing up laparoscopic and robotic surgery for GI cancer in Sir Ganga Ram hospital. He and his team performed the first robotic hepatico-jejunostomy in India and first low anterior resection in North India and were among the first to perform robotic and laparoscopic oesophagectomy in North India with excellent results. Professor Rawat is passionate about teaching. He is a trainer in laparoscopic surgery for Royal College of Surgeons of England and has trained surgeons all around the world.

EVENING SOCIAL PROGRAMME

WEDNESDAY 5 DECEMBER 2018

17:30 – 19:15 | The President's Drinks Reception

Mr Simon Dexter, our President, the ALSGBI Council and special guest, Mr Andy Burnham, Mayor of Greater Manchester, are all looking forward to extending a warm welcome to delegates at this drinks reception in the Industry Exhibition, located in Charter 2 & 3, Ground Floor, Manchester Central. This will be a great opportunity to catch up with old colleagues and the ALSGBI Industry Partners.

FREE to registered delegates only (pre-book)

19:30 – 22:30 | ALSGBI Conference Dinner | Dress code: Lounge Suit

Venue: The Midland Hotel, 16 Peter Street | Manchester M60 2DS

Join us in the elegant Trafford Room at Manchester's most iconic hotel for an evening of fine dining and conversation. The Midland Hotel is steeped in history **but did you know....**

- The hotel was designed by Charles Trubshaw and constructed between 1898 and 1903 for the Midland Railway Company at a cost £1.5 million – an enormous sum in those days.
- In 1908 *The Railway News* reported that the hotel had over 70,000 guests in its first year and described it as a '20th century palace'. The hotel had a 1,000 seat purpose-built theatre where opera and drama were staged plus a roof terrace where a string quartet performed.
- The Midland Hotel was allegedly coveted by Adolf Hitler, who maintained a keen interest in architecture, as a possible Nazi headquarters in Britain. American intelligence speculated that the area of Manchester around the town hall was spared from bombing so as not to damage or destroy the Midland Hotel.
- The Midland was where Charles Rolls met Henry Royce leading to the formation of Rolls-Royce Limited in 1904. Queen Elizabeth, the Queen Mother dined in the hotel's Trafford Restaurant in November 1959 after attending a Royal Variety Performance at the Palace Theatre. The Beatles were famously refused access to the French Restaurant for being 'inappropriately dressed'.

This year we will be entertained by **Mr Geoff Miller**, our guest speaker.

- Geoff Miller spent 20 years on the professional cricket circuit representing Derbyshire, Essex, Natal and England. He travelled to all the major test-playing countries and played with or against some of the greatest players in the game. He played in 34 test matches; 25 one day internationals; 7 overseas tours; scored over 14,000 runs; was captain of Derbyshire and Vice Captain of England; took over 1000 wickets and held over 300 catches.
- Apart from cricket, Geoff's greatest attribute was his ability to keep his team-mates amused with his hilarious dry Northern humour - which he now brings to the after-dinner circuit. Geoff knows a host of entertaining stories due to his various adventures.
- In January 2008 Geoff was appointed to one of the top jobs in cricket – Chairman of Selectors - a position he left in 2014, he now continues to work as an after-dinner speaker and host, whilst attempting to spend more time at his family home in Derbyshire.

Panel: Professor Nader Francis (Yeovil); Professor Scott Kelley (USA)

Professor Saumitra Rawat (India); Professor Peter Sagar (Leeds)

12:10 – 12:25 **LESSONS FROM CORESS****(Confidential Reporting System in Surgery)**

Professor Frank Smith (Bristol)

Chairman: Mr Chelliah Selvasekar (Manchester)

12:25 – 13:05 **FREE PAPERS FROM SUBMITTED ABSTRACTS (4 PAPERS)**

Chairmen: Mr Paul Leeder (Derby); Professor YKS Viswanath (Middlesbrough)

12:25 – 12:35 **FP 01 ANASTOMOTIC LEAK AFTER COLORECTAL SURGERY:**
AN INSIGHT OF RISK FACTORS

Presenter: H Younus, King's College Hospital, London, UK

12:35 – 12:45 **FP 02 IMPACT OF ROBOTIC PLATFORM ON RECOVERY**
AFTER RECTAL CANCER SURGERY

Presenter: T Petropoulou, Sheffield Teaching Hospitals, UK

TIMETABLE

12:45 – 12:55 **FP 03** LAPAROSCOPIC TOTAL ADVENTITIAL RESECTION OF THE CARDIA PROVIDES IMPROVED SURVIVAL FOR PATIENTS WITH CANCER AT THE OESOPHAGO-GASTRIC JUNCTION
Presenter: A Botha, Guy's and St Thomas' Hospitals, London, UK

12:55 – 13:05 **FP 04** LAPAROSCOPY IN EMERGENCY GENERAL SURGERY (LEGS): A NATIONAL MULTI-CENTRE REVIEW OF CURRENT CONSULTANT PRACTICE IN THE UK
Presenter: P Sodde, North West Deanery, UK

13:05 – 14:00 **LUNCH** WILL BE SERVED IN THE INDUSTRY EXHIBITION CHARTER 2 & 3, GROUND FLOOR
INDUSTRY EXHIBITION Your last chance to meet with the Leaders of Industry and partake in the highly competitive **Industry Challenge**.
All competition coupons to be handed to Team ALSGBI by 14:30

14:00 – 14:15 **ANNUAL GENERAL MEETING**

AGENDA

- 1 Apologies for Absence (Mr David Mahon)
- 2 Minutes of the ALSGBI AGM held on Friday 10 November 2017 at City Hall Cardiff (Mr Simon Dexter)
- 3 Honorary Secretary's Report (Mr David Mahon)
 - a. ALSGBI Session @ ASGBI International Surgical Congress The International Centre Telford, 7-9 May 2019
 - b. 27th International Congress of the EAES, Seville, Spain, 12-15 June 2019
 - c. ALSGBI 2019 Annual Scientific Meeting Royal Armouries, 14-15 November
 - d. ALSGBI 2019 Laparoscopic Surgery Training Day, St James's University Hospital Leeds, 13 November
 - e. ALSGBI 2020 Annual Scientific Meeting, ILEC, Ibis London Earls Court, 7-8 December
 - f. ALSGBI 2020 Laparoscopic Surgery Training Day, 6 December
 - g. ALSGBI Council & Regional Election Results
 - h. Announcement of the Travelling Scholarship Winners
- 4 Honorary Treasurer's Report (Mr Donald Menzies)
 - ◆ Membership Fees
- 5 Director of Education's Report (Mr Paul Leeder)
 - ◆ LapPass
- 6 President's Report (Mr Simon Dexter)
 - ◆ Incorporating Robotics & Technology Enhanced Surgery
- 7 Any Other Business

14:15 – 14:30 **SWORD (Surgical Workload, Outcomes & Research Database) UPDATE**
Mr Ian Beckingham (Nottingham); Mr Mark Vipond (Gloucester)
Chairman: Mr Simon Dexter (Leeds)

TIMETABLE

- 14:30 – 15:00 **THE ALSGBI LECTURE: TRAINING IN ROBOTIC COLON & RECTAL SURGERY**
 Professor Scott Kelley, (Mayo Clinic, Rochester, USA)
 Chairman: Mr Simon Dexter (Leeds) 
- 15:00 – 15:40 **FREE PAPERS FROM SUBMITTED ABSTRACTS (4 PAPERS)**
 Chairmen: Mr Andrew Day (Redhill); Mr Ewen Griffiths (Birmingham) 
- 15:00 – 15:10 **FP 05 OUTCOMES OF LAPAROSCOPIC PANCREATODUODENECTOMY (LPD) FROM A TERTIARY CENTRE**
 Presenter: S Patel, Addenbrookes Hospital, Cambridge University Hospitals NHS Foundation Trust, UK
- 15:10 – 15:20 **FP 06 WHAT ARE ACCEPTABLE OUTCOMES AFTER LAPAROSCOPIC FUNDOPLICATION? A COMPARISON OF PATIENTS GPS AND SURGEONS**
 Presenter: A Currie, Flinders University Department of Surgery, Flinders Medical Centre, Adelaide, Australia, Western. Sussex Hospitals NHS Trust, Chichester, UK
- 15:20 – 15:30 **FP 07 QUANTIFYING TENSION IN TENSION-FREE HIATAL HERNIA REPAIR: A NEW INTRA-OPERATIVE TECHNIQUE**
 Presenter: L Navaratne, Northwick Park Hospital, London, UK
- 15:30 – 15:40 **FP 08 COMPARATIVE ANALYSIS OF OPEN LAPAROSCOPIC AND ROBOTIC DISTAL PANCREATIC RESECTION: AN ANALYSIS OF A SINGLE CENTRE EXPERIENCE**
 Presenter: SK Kamarajah, Department of Hepatobiliary, Pancreatic and Transplant Surgery, Academic Department of Surgery, Freeman Hospital, Newcastle, UK
- 15:40 – 16:00 **TRAVELLING SCHOLARSHIP PRESENTATIONS**
 Chairmen: Mr Simon Dexter (Leeds); Mr David Mahon (Taunton)
GASTRIC CANCER SURGERY AT THE NATIONAL CANCER, CENTER, SEOUL
 Mr Nima Abbassi-Ghadi (Guildford) 
LESSONS IN LAPAROSCOPIC LIVER SURGERY FROM MILAN
 Mr Andrew Healey (Edinburgh) 
- 16:00 – 16:10 **ALSGBI AWARDS CEREMONY**
 Chairmen: Mr Simon Dexter (President); Mr David Mahon (Taunton)
 LapPass Qualifiers 2015-2018
 Winner of the 2018 David Dunn Medal
 Winner of the 2018 Journal of Surgical Simulation Award
 Winner of the 2018 ALSGBI Best Laparoscopic DVD Prize

GENERAL INFORMATION

REGISTRATION & ENQUIRIES DESK

LOCATED IN THE INDUSTRY EXHIBITION, CHARTER 2 & 3, GROUND FLOOR, MANCHESTER CENTRAL

08:30 – 19:15 Wednesday 5 December

08:30 – 16:30 Thursday 6 December

The final programme and abstract book can be viewed on the ALSGBI [website www.alsgbi.org](http://www.alsgbi.org)
The scientific programme will be available in paper format in the ALSGBI newsletter which will be available at the registration desk.

ABSTRACT BOOK

All Abstract and Free Paper Presentations FP 01 – FP08, Abstracts of DVD Presentations DVD01 – DVD06 and Abstracts of Poster Presentations P01 – P53 have been reproduced in the ALSGBI Conference Abstract Book available on the ALSGBI website.

AUDIO VISUAL INFORMATION

All presentations must be compiled using PowerPoint. Presentations must be brought to the conference on a disk, USB stick or laptop. Speakers are required to visit the Audio Visual Speakers' Preview Desk ((back of the stage), Charter 1, Ground Floor, at least one hour prior to the scheduled lecture. All presenters of papers and DVDs must have pre-registered for the conference.

Specification for Holding Slides & DVDs:

Holding slide dimensions are a minimum of 1920 x 1080 and an aspect ratio of 16:9. If produced larger, they must still be at an aspect ratio of 16:9. DVDs: Ideally, should be MP4 files using the H.264 codec. They should have a frame rate of 25 frames per second. Most importantly, they should be sized at 1920 x 1080 pixels. It would only be worth reproducing the videos if the size of the original source material was also 1920 x 1080.

CAR PARKING ARRANGEMENTS

All travel information can be found on the Manchester Central website

www.manchestercentral.co.uk/parking

Parking is available at the Manchester Central NCP (National Car Park) situated directly underneath the venue. It is open 24 hours a day all year round. It has 720 spaces including 18 disabled parking bays and there is direct access to Manchester Central by lift, stairs and escalators. A discounted rate of £12 per day is available in advance of the event via the NCP website using discount code "EXHIBMC". The height restriction for this car park is 1.98m.

Please see the NCP website www.ncp.co.uk/find-a-car-park/car-parks/manchester-central-under-jv/ for information on pricing and online booking. T: + 44 (0)161 817 8900

If using a satellite navigation system - please follow the postcode M2 3GX

Information on planning a journey by car can be found at: www.theaa.com and www.highways.gov.uk

CERTIFICATE OF ATTENDANCE

A Certificate of Attendance will be provided by email only upon completion of our feedback form available on the ALSGBI website www.alsgbi.org/manchester2018 This certificate can be included in delegates' CPD portfolios as proof of attendance. CPD points are awarded as follows:

Tuesday 4 December	ALSGBI Laparoscopic Surgery Training Day	8 points
Wednesday 5 December	ALSGBI Annual Scientific Meeting	8 points
Wednesday 5 December	ALTS Annual Scientific Meeting	8 points
Thursday 6 December	ALSGBI Annual Scientific Meeting	8 points

CLOAKROOM FACILITIES

The cloakroom is located in the Charter Foyer, Manchester Central, and is free of charge. This will be staffed from 08:00-19:30 on Wednesday 5 December and 08:00-16:40 on Thursday 6 December.

DELEGATE LIST

Due to the GDPR rules introduced earlier this year the ALSGBI will be issuing a delegate list to industry but only including the names and email addresses of delegates who have consented for their information to be shared. Industry can also obtain delegates' details using the QR code system if the delegates choose to offer them.

DRESS CODE

Please be reminded that the dress code for the meeting and conference dinner is lounge suit.

INTERNET ACCESS

Complimentary Wi-Fi access is available throughout Manchester Central. Please select the MCCC network and open a browser to prompt the registration page. The download speed of the free internet access is 5mb which is suitable for web browsing and emails only.

HOTEL ACCOMMODATION

For last minute bookings visit our dedicated conference hotel booking site

<https://book.passkey.com/event/49584942/owner/9745128/home>

LUNCH & REFRESHMENTS

The delegate registration fee includes the cost of lunch and refreshments, which will be available in the Industry Exhibition, Charter 2 & 3, Ground Floor.

RECYCLING

Recycling boxes have been provided throughout the venue to recycle plastic badge holders and lanyards.

SECURITY

In the interests of security, delegates and industry personnel are required to wear name badges at all times during the meeting. It is recommended that valuables are not left unattended. There will be a bag search upon entering the Charter Foyer.

TRAVEL

Please visit <https://www.alsgbi.org/wp-content/uploads/2018/09/Travel-Information.pdf> for full travel details.

PRIZES & AWARDS

Abstract Prize

Papers that have been short-listed for this prize will be presented in the Free Paper Sessions on Thursday 6 December at 12:25 - 13:05 and 15:00 - 15:40. The winner of the best oral abstract will be presented with the 2018 David Dunn Medal and a cheque for £600 generously sponsored by The European Association for Endoscopic Surgery (EAES). The announcement of the 2018 David Dunn Prize winner will be made during the ALSGBI Awards Ceremony at 16:00 on Thursday 6 December. The winner must be an ALSGBI paid-up trainee member to qualify for this prize.

For the second placed oral presentation, the Journal of Surgical Simulation will award a £250 publication voucher to cover the cost of publication if the work is submitted as a full length article to Journal of Surgical Simulation, or a cash prize of £100 if the article is not suitable for JSS, or there is an arrangement to publish elsewhere. The winner must be a paid-up trainee member of the ALSGBI to qualify for this prize.

The presenters of the top eight Short Papers will be awarded prizes supported by the ALSGBI 2018 Trainee Scheme & Industry Partners Awards. The presenters must be trainees to qualify for these prizes and must be ALSGBI paid-up members.

Those selected for oral presentation will automatically have their papers published in a supplement to the Surgical Endoscopy Journal.

DVD Prize

DVDs that have been short-listed for the 2018 ALSGBI Best Laparoscopic DVD Prize will be presented in the DVD Session on Thursday 6 December at 09:15 - 10:03. The winner of the best DVD will be awarded a cheque for £250. The announcement of the winner of the 2018 ALSGBI Best Laparoscopic DVD Prize will be made during the ALSGBI Awards Ceremony starting at 16:00 on Thursday 6 December. The winner must be an ALSGBI paid-up trainee member to qualify for this prize.

Poster Prize

The poster exhibition will take place in Charter 2 & 3, Ground Floor from 08:30 on Wednesday 5 December to 14:30 Thursday 6 December. The posters will be judged on Wednesday 5 December (between 12:00–14:00) when the presenting authors **MUST** be in attendance by their posters displayed on the relevant monitor. The announcement of the top two posters for presentation will be at 17:00 on Wednesday 5 December. The authors of the top two posters will be invited to give an oral presentation on Thursday 6 December between 10:03-10:15. The presenter of the best poster will be awarded a cash prize for £150. The announcement of the winner of the 2018 ALSGBI Best Laparoscopic Poster Prize will be made during the ALSGBI Awards Ceremony starting at 16:00 on Thursday 6 December. The winner must be an ALSGBI paid-up trainee member to qualify for this prize.

ALSGBI INDUSTRY AWARDS 2018

Some ALSGBI Industry Partners & Exhibitors have generously increased the money raised through the Support an ALSGBI Trainee 2018 Scheme. The money will be allocated to all trainee authors presenting an oral paper. The winners must be ALSGBI paid-up members to qualify for these prizes.

INDUSTRY CHALLENGE FOR ALL REGISTERED DELEGATES

The ALSGBI is running a competition to encourage all delegates to visit our industry exhibitors. This year the main prize will be £700, with a runner-up prize of £150.

At each participating stand the visiting delegate will be given a task to complete, involving the equipment displayed on the stand, and will then receive a Gold, Silver or Bronze coupon depending on their performance. Each exhibitor is free to choose their own grading system, for example, if a task is to be completed within 3 mins, the coupon grading could be:

< 2 mins	Gold
2 – 2.5 mins	Silver
2.5 – 3 mins	Bronze
> 3 mins	—

Once the delegate has been awarded their coupon, the company will need to write the delegate's ID number onto it, the ID number can be found on the delegate's badge.

The delegate then needs to bring this coupon to the ALSGBI Industry Challenge Hub to be entered into the competition.

The ALSGBI leader board by the exhibition entrance will display throughout the ASM who is in the lead. In the event of a tie break the winner will be chosen at random by the President. The winner of the Industry Challenge will be announced during the awards ceremony.

B. BRAUN MEDICAL UK LTD

STAND 7

B. Braun Medical UK Ltd are proud to continue to support the ALSGBI as a Platinum Partner at this year's meeting. The globally recognised Aesculap surgery division was founded over 150 years ago in Gottfried Jetter's small workshop with two employees in downtown Tuttlingen, Germany, and has grown into a global medical technology partner. B. Braun now employs 58,000 employees worldwide, of which 11,750 are employed by the Aesculap division. We will be showcasing our diverse Aesculap Endosurgical range for laparoscopy which includes reusable and single use instruments, ligation clips, hybrid solutions, laparoscopes, needle holders, laparoscopic ports, light cables, full HD and 3D cameras and digital documentation, all with the pedigree of the world's largest surgical instrument company.

Our latest EinsteinVision 3.0 3D camera system recently won awards including a Red Dot Design Award. With innovative sterile sleeve concept, fog minimising distal tip heating and true to life colour rendering, we are proud that our system is setting the benchmark in 3D laparoscopic surgery, helping our users to 'see better'. We will be presenting surgical films recorded with our system, together with hand on trainers allowing you to experience the difference another dimension can make.

Our Caiman advanced energy seal and cut device range continues to grow and this year we will be showcasing our new Maryland jaw. Named after the Caiman Alligatoridae species, our product shares many of the features of this powerful animal and will be available for you to experience first hand. With the longest jawed vessel sealing device currently available, an innovative design including tip first closure, even tissue compression and cold cutting and blunt dissection capabilities, Caiman is a popular choice for advanced bipolar applications. Please try our range of handpieces, including articulating devices, allowing perpendicular access to vessels and maximizing burst pressures, offering increased efficiency and one seal confidence.

Our stand will include a Virtual Reality challenge game. Why not experience a potential vision of surgery in the future and pit yourself against your colleagues to see if you can outperform all others in this interactive experience.

Please visit stand 7 to meet our team and learn more about our exciting and innovative products.

KARL STORZ ENDOSCOPY (UK) LTD

STAND 12

“Avoiding Complications” is what KARL STORZ Endoscopy (UK) Ltd is all about; with a market-leading camera platform and complementary products, safety starts with what you can see.

Often, product portfolios can be niche, KARL STORZ not only shows the diversity that is possible but also the strength and depth of reusable equipment:

- 4K and Fluorescence technology highlight structures and tissues not easily visible to the naked eye.
- Flexible video scopes allow direct visualisation of the smallest and most complicated anatomy.
- Smoke evacuation and high flow insufflators clear the surgical field for safe operating.
- ENDOPROTECT1 helps to eradicate that which you can't see with removal of unlicensed third-party repairs that destroy your instrument portfolio from the inside.
- A Managed Service Facility (MSF) ties all these attributes together under an umbrella of best practice, standardisation and predictability.

There's nothing complicated about it, just come and have a chat about your surgical issues...

MÖLNLYCKE HEALTH CARE LTD

STAND 11

Mölnlycke is proud to be a Platinum Sponsor of the ALSGBI Annual Scientific Meeting and is delighted to showcase their comprehensive range of trocars and instruments. Mölnlycke has a vast experience manufacturing high-quality surgical products, including Biogel, Hibi, BARRIER and Mölnlycke Procedure Trays.

Mölnlycke is a world leading medical solutions company. Our purpose is to advance performance in healthcare across the world, and we aspire to equip everybody in healthcare with solutions to achieve the best outcomes. At Mölnlycke, we deliver innovative solutions for managing wounds, improving surgical safety and efficiency, and preventing pressure ulcers. Solutions that help achieve better outcomes and are backed by clinical and health-economic evidence.

Our complete laparoscopic solution includes trocars, instruments, laparoscopic drapes and laparoscopic tray components. The Mölnlycke laparoscopic solution compliments and drives theatre efficiency as the range of products can also be included as part of a customised laparoscopic Procedure Tray. Your own truly customised laparoscopic solution with everything you need for each specific procedure in a single, convenient and cost-effective package.

Please visit stand 11 to meet our team and learn more about our exciting range of products.

ARTHREX LTD

STAND 19

Arthrex has developed more than 11,500 innovative products and surgical procedures to advance minimally invasive orthopaedics worldwide. Medical Education is at the core of Arthrex's foundations and our philosophy of "helping surgeons treat their patients better" has not only shaped our principles and history but is guiding us into the future. This core value is why we are again this year proudly supporting the LapPass Training programme. The Arthrex Mobile Skills Lab will be on site at the meeting and will have the laparoscopic LapPass assessments ongoing during the Congress.

Arthrex are recognised for the innovation and excellence of their products as well as the service, support and training they provide to their customers. With the first to market 3 chip Ultra HD – 4K imaging technology, Arthrex can offer surgeons, across all surgical disciplines, market leading laparoscopic visualisation technology four times greater than the High Definition systems currently available.

Please visit us and see our technology at first hand at Booth 19, to see the next generation in visualisation technology including our Big Screen Surgery options.

OLYMPUS MEDICAL

STAND 15

Working Together to Improve the Patient's Journey

Olympus, is a worldwide leading manufacturer of cutting edge advanced energy devices and sophisticated imaging systems and focuses on improving patient care and quality, as well as being a valued partner in the field of surgery.

As healthcare professionals focus on early detection of diseases and minimally invasive procedures, Olympus aims to provide innovative, clinically advanced precision technologies and services. Working closely with healthcare professionals on a daily basis, the mission of Olympus is to find the best solutions for our customers so they in turn, can provide improved patient outcome, minimise discomfort and accelerate the recovery process.

Whether utilising our Professional Education programme or supporting theatre teams in the OR - Olympus aims to continuously find better and more economical solutions to medical issues, with the aim of improving the wellbeing of patients, enhancing the working environment for doctors and nursing staff and helping to develop the overall performance of health care providers.

The company's expertise is supporting thousands of clinicians around the world to diagnose and treat patients while enabling efficiency by increasing patient throughput.

STRYKER UK LTD

STAND 9

Stryker are delighted to be supporting the ALSGBI ASM 2018 in Manchester. We share collective purpose to help improve standards, promote training and to encourage the sharing of best practice within minimal access surgery.

Our mission and approach towards technology remains to allow clinicians to 'See More and Do More' in surgery. In line with this, 2018 at ALSGBI we will be showcasing our leading Laparoscopic and Fluorescent Guided Surgery Platforms.

The future of surgical visualisation is about standards or care, patient outcomes and reducing complications. Our fluorescent imaging platforms have a wealth of clinical data showing increased standards of care and reduction of post-op complications. Fluorescent guided surgery enables the surgeon to 'See More and Do More', supporting clinical decision making intraoperatively. Surgeons can visualise perfusion, lymphatic mapping and critical anatomy in real-time.

We look forward to meeting you on our exhibition stand (9) where we will have our suite of imaging platforms and really welcome your thoughts and discussions.

ADVANCED MEDICAL SOLUTIONS

STAND 20

Advanced Medical Solutions (AMS) are pleased to be exhibiting our next generation Hernia mesh fixation device Liquiband® Fix8™.

AMS are a leading developer and manufacturer of innovative and technologically advanced products for the Surgical and Wound Closure markets.

Liquiband® Fix8™ has been clinically designed to offer precise and controlled delivery of tissue adhesive anchors, resulting in strong mesh fixation for Inguinal, Incisional and Ventral Hernia Repairs. This fixation provides a non traumatic solution reducing the risk of post operative complications such as Neuralgia and Paraesthesia.

Higher levels of patient comfort have been reported as well as being a cost effective solution.

COOK MEDICAL

STAND 22

We won't be satisfied with the state of surgery until every person who enters the operating room has a positive outcome. We've been working towards that goal by partnering with surgeons, sharing advanced techniques, and making devices that can help in even the most complex cases.

In 1963, Cook Medical's founder, Bill Cook, worked with a surgeon to launch the field of minimally invasive medicine. Now we continue his vision worldwide, through educational programs like Cook Vista and through technologies like Hemospray, Biodesign and Common Bile Duct Exploration Sets.

Our goal is to deliver devices that give the best outcomes to surgeons, hospitals, and - most importantly - patients.

FISHER & PAYKEL HEALTHCARE LTD

STAND 4

Fisher & Paykel Healthcare are renowned leaders in developing humidification products and therapies across various specialities, including the surgical environment.

During laparoscopic surgery, the abdomen is insufflated with cold dry CO₂, a stark contrast to normal body conditions. The consequences being tissue desiccation and evaporative cooling, which can negatively impact patient's outcomes. By heating and humidifying the CO₂, HumiGard™ offers an effective solution, delivering CO₂ at normal body conditions.

HumiGard™ is easy to use, integrates seamlessly into theatres and can play an important role both intra-operatively and post-operatively:

- Reducing intra-operative Hypothermia
- Reducing inflammation
- Reducing surgical site infection
- Reducing opioid requirement

SPECIAL ROBOTICS SPONSOR

INTUITIVE SURGICAL

STAND 10

Intuitive®, headquartered in Sunnyvale, California, was founded in 1995 to create innovative, robotic-assisted systems that help empower doctors and hospitals to make surgery less invasive than an open approach. Since da Vinci® became one of the first robotic-assisted systems cleared by the FDA for general laparoscopic surgery, it's taken robotic-assisted surgery from concept to reality. Working with doctors and hospitals, we're continuing to develop new, minimally invasive surgical platforms and future diagnostic tools to help solve complex healthcare challenges around the world. Innovating for minimally invasive care. It's the passion that drives us at Intuitive.

SWORD (SURGICAL WORKLOAD, OUTCOMES & RESEARCH DATABASE)

SWORD has undergone a major software update this year and this has given us the opportunity to move to a web based platform with easier access for ALSGBI members and more flexibility in the metrics. It has been modernised and the appearance and graphics improved. New codes for colorectal work have been added and the appraisal tool will be directly accessible from the website at any time rather than needing to be requested as currently.

At the ASM there will be the inaugural showing of the new Tableau version of SWORD which will add improved value to your ALSGBI membership

THE ALSGBI EXHIBITION PLAN

CHARTER 1-4 / GROUND FLOOR

LAPPASS – THE LAPAROSCOPIC PASSPORT FOR SURGICAL TRAINEES

THE ALSGBI CERTIFICATE OF TECHNICAL SKILLS PROFICIENCY IN LAPAROSCOPIC SURGERY

This gratis certificate can be added to your portfolio when a series of timed laparoscopic skills tests are successfully passed. The 5 defined laparoscopic skills assessing a high standard in core competencies are:

- Camera Holding (assessed intra-operatively)
- Grasping & Manipulation
- Creation & Accurate Deployment of Secure Endo-Loops (e.g. Roeder Knots)
- Cutting & Dissection
- Intracorporeal Suturing

Resources for the instructions on the tasks are available on the ALSGBI website <http://www.alsgbi.org/trainees/passport> from where assessment forms can also be downloaded.

The acquisition of the LapPass is a nationally recognised standard and evidences a high level of skill in laparoscopic tasks relevant to advanced surgery. All trainees are encouraged to achieve this standard and to demonstrate this by obtaining the LapPass certificate.

There will be 6 units in the LapPass Training Area in the Exhibition. The LapPass check-in desk will be open from 08:30-18:00 on Wednesday 5 December and 08:30-14:00 on Thursday 6 December when it will be possible to book the LapPass examination which will take place in the Arthrex Mobile Skills Lab by the main entrance to the Charter Suites. Supported by:
