

Horizon Training Centre

Live link lecture theatre

Wet lab facilities

4th Annual Laparoscopic Bile Duct Exploration Course

Thursday 27th June 2019-
Friday 28th June 2019

*Upper GI
Trainees/Consultants
(StR6-8/Post CCT)*

Integrated theatre

LCBDE animal model

This two day course is designed to concentrate on laparoscopic bile duct exploration. The first day covers evidence for practice, patient selection, surgical techniques, the 'pit falls' of starting a service, getting the right equipment. Also discussed is the management of acute presentation and integration of surgical service and ERCP. As well as lectures live link surgery will be used for interactive discussion. The second day is workshop based concentrating on laparoscopic suturing, choledoscopes and bile duct instruments and a highly recommended LCBDE wet lab model.
